Pelinkovac

Bitter Herbal Liqueur

Darna Pelinkovac, also affectionately known as Rovinjski Pelinkovac, is a liqueur produced from the essence of the Artemisia herb, commonly known as wormwood or pelin in Croatian. This product is based on a traditional recipe that originated in 1925. Pelinkovac is combined with numerous additional aromatic herbs and sugar caramelized in special copper kettles then matured in oak barrels.

The thick amber liqueur coats and warms your mouth when consumed straight. Pelinkovac is also enjoyed chilled, mixed with tonic water or other carbonated drinks.

Croatian Quality
